

Turquoise Way

Share the path-keep left.

Welcome to Yued Country (*boodja*)

Plan your trip

Carry plenty of water as there is no drinking water provided along many parts of the path.

Bushfires

Do not light fires. Check the Fire Danger Rating as there is limited vehicle access for evacuation in the event of a bushfire. In case of an emergency make your way to an accessible beach.

Beaches

Beaches can be a dangerous place due to rips, currents, waves, drop offs and sand bars. Always actively supervise children within arm's reach and never swim alone.

Stay on the path

If you move off the path, you risk introducing and spreading dieback disease.

Keep the path clean

No bins are provided in the remote areas of the path. Please take any litter with you.

Protect animals and plants

Look out for animals crossing the path (including snakes).

Take care along the path

Your enjoyment and safety is our concern, but your responsibility.
